Co-Evolution Fellowship, a program that took place from August 11 to 14, 2024.

From August 11 to 14, 2024, we had the privilege of witnessing the transformation of 20 Detroit youths from Cody Rouge Community Action Alliance who participated in the launch of the Co-Evolution Fellowship.

The 20 Co-Evolution Fellows traveled from Detroit, MI via Amtrak to Chicago, IL, to engage in a four-day leadership residency, which included:

- Tours of The University of Chicago, Chicago State University, and Roosevelt University
- Cross-community conversation with students from Richard J. Daley College on the college-going culture
- Intra-group dialogue on their perspectives on higher education
- Tours of local cultural spaces, i.e., Navy Pier, Chicago River Architectural Tour, Magnificent Mile, Millennium Park, and Grant Park

On the 4th day, each fellow had the opportunity to share their unique perspectives and experiences through video projects, a significant part of the program that we believe truly captured the essence of their journey.

While many social outcomes emerged from the experience, i.e., team building, leadership development, community building, and self-expression, what stands out most are the 6-high school seniors in the fellowship who expressed keen interest in attending Chicago State University (4) and Roosevelt University (2).

Stay tuned to major updates from Cody Rouge Co-Evolution Fellows!
